Pharma Packaging

FOCUS

Special: Pharma Packaging Get on Board!

➤ Publication date: 13 December, 2018

Hot topics in pharma packaging

In this focus topic, EUROPEAN BIOTECHNOLOGY MAGAZINE will shed a light on the latest trends in the pharma packaging market: How will connected devices and digitalisation impact the growing sector? Which serialisation solution is the best for your company? How can service providers such as CDMOs prepare themselves to bridge the serialisation gap? Packaging lines: How to connect/automate packaging? Whatever your business focus is, whether you're active in packaging machines, drug delivery devices, production of prefilled syringes, vials, or devices for self-administration or plastic pharmaceutical packaging – contact us in the editorial office or meet our team at stand #12B33 in hall 12 (bioLive) at CPhI on 9–11 October 2018.

Present your expertise

Pharma packaging companies, drug delivery specialists and serialisation solution providers – every part of the primary and secondary packaging value chain – will have the opportunity to present their latest products, processes, and equipment in this focus topic. EUROPEAN BIOTECHNOLOGY MAGAZINE goes out to decision makers throughout the entire European Life Sciences sector. As EUROPEAN BIOTECHNOLOGY MAGAZINE is Media Partner of the Pharmapack 2019 (6–7 February 2019), this upcoming edition will have an extra-distribution in Paris. Take advantage of the journal's highly relevant readership and grab this opportunity to target your audience!

Topics to be covered

CPOs/Pharma packaging: contract serialisation for SMEs, progress in self-administration devices, anti-tampering devices, drug stability, prefilled syringes, vials and lyophilisation, connected devices, blisters and plastics containers, packaging automation/documentation, packaging lines etc.
